

**MULTILIFT**

**A NEW ERA OF STRENGTH AND CONTROL**  
**INTRODUCING MULTILIFT ULTIMA**

# THE NEW ERA HA

MULTILIFT hooklifts have long been the market leader when it comes performance and reliability. With options for the full range of basic to extra demanding loading tasks, there has always been a MULTILIFT to fit any need.

But it's not enough just to be the best. That is why we are taking hooklift technology further

than ever before. Prepare to meet MULTILIFT Ultima: the next generation of hooklifts.

MULTILIFT Ultima is engineered with radical innovations that ensure greater control, safety and productivity in any loading duty. From HiVision™ camera-guided functions and advanced connectivity, to a unique integrated weighing system and intuitive

# S ARRIVED

touchscreen controls, Ultima represents a new era for load handling – and for your business.

**The new era has arrived.  
Are you ready?**

# MULTILIFT ULTIMA PIONEER HOOKLIFT INNOVATIONS

MULTILIFT Ultima is designed to help you get more done with total confidence in the safety of your operators and the surrounding area. It is all thanks to innovative features that combine the powerful strength of a MULTILIFT with a never-before-seen level of control.

## HookliftAssist™

Discover enhanced productivity thanks to HookliftAssist™: groundbreaking camera-guided control based on Hiab's proven HiVision™ technology. HookliftAssist™ provides exactly the level of functionality that your loading task requires, with four different levels designed to meet a range of needs.

## Total safety in focus

## SafePositioning™

The automated MULTILIFT SafePositioning™ detection system safely slides containers into a pre-set position based on their length. This state-of-the-art feature\* ensures your containers fit optimally and protects other equipment installed on the trucks, such as cranes.

## Integrated Load Weighing

Expensive, third-party indicative weighing solutions are a thing of the past. MULTILIFT Ultima comes with everything needed to maximize your payload while avoiding the risk of overload charges. MULTILIFT's unique system\* calculates weight during the loading process, so you can work even more efficiently than before.

\* Patent pending

# EERING

## LoadBoost™

The intelligent Hiab LoadBoost™ system with protective damping automatically adapts hooklift speed according to the weight of the load, so you get maximum productivity without putting safety at risk.

## FutureTouch™ Display

Take control to new heights with options for a 7-inch advanced touchscreen display. Steer everything with just one finger, while accessing diagnostic messages, load indicator and weight information and more from a single, convenient unit.

## Sequence Performance™

Thanks to Ultima's automatic sequence control, a single lever movement is all that's needed for loading, unloading and tipping. It's never been faster, smoother or easier. Also take advantage of MULTILIFT's unique, optimized hook height loading/unloading sequence with z-unit.

## Connectivity

Ultima is designed to give your business a future-proof solution. Your hooklift comes fully ready for connectivity, so you have unlimited possibilities to adapt to tomorrow's demands.

## EasyService™

Ultima means ultimate uptime, with a hooklift that is simple to service and maintain. Key components are easy to access and routine checks can be performed with lightning speed. The ability to receive diagnostic reports also gives you the information you need to create the optimal service schedule.

# CONTROL ON YOUR TERMS

MULTILIFT Ultima represents a new era of hooklift control, thanks to the launch of Hiab's uControl platform. With three new control system options, uControl provides a smarter solution for a wide range of modern loading tasks.

## uControl Base

With our standard control box, you have the right tools at your fingertips to perform your every-day tasks with total ease and safety. You also have the option to integrate connectivity and enhance your performance in line with today's latest solutions.

## uControl Flex

When you need to be ready for what tomorrow holds, uControl Flex has you covered. This system gets you started with a range of new, smart control features, while also giving you options for further possibilities in the future. uControl Flex can be configured with optional connectivity as well as a basic screen or the advanced FutureTouch™ display.

## uControl Pro

For jobs where professional control is critical, uControl Pro is the obvious choice. Fully loaded with the best innovations from Hiab, it comes ready for connectivity and includes a basic display as standard. The advanced Hiab FutureTouch™ display can also be installed as an option.

## Part of the complete MULTILIFT range

MULTILIFT Ultima is just the latest in a long series of pioneering load handling solutions from Hiab. To learn more about the complete range of MULTILIFT hooklifts and skiploaders, visit [hiab.com](http://hiab.com) or contact your local dealer.

### MULTILIFT LIGHT/MEDIUM

- 2-10 ton capacity
- Sliding (S) movement
- Manual control
- Standard MULTILIFT features

### MULTILIFT CLASSIC

- 18-22 ton capacity
- Sliding (S) and Tilting (T) movement
- Manual control
- Standard MULTILIFT features

### MULTILIFT OPTIMA 20

- 20 ton capacity that's simply right
- Sliding (S) movement
- Basic control system
- Low weight, low installation height and high operating speed

### MULTILIFT ULTIMA

- 14-30 ton capacity
- Heavy and Low-built models
- Sliding (S) and Sliding/Tilting (Z) movement
- uControl next-generation control system with 3 levels of control
- HiVision camera-guided operation on 4 levels
- Built-in HiConnect functionality
- ProFuture models

# DELIVER AS PROMISED WITH HIAB SERVICES

When you invest in Hiab equipment, you invest in quality performance to safely and efficiently fulfil your commitments to your customers – every single day.

With Hiab Services, we are here for you throughout your equipment lifecycle, giving the uptime and reliability you need to deliver as promised. With the latest tools, connectivity and a wide network of experts,

we support you whenever and wherever you need us. So you can sleep well at night – every single night.

- **Lifecycle Services**
- **Original Parts**
- **Connected Services**
- **Financial Services**

## Securing your original investment

Hiab Original Parts ensure that your Hiab product stays a Hiab product. In other words, they give you the same functionality and quality you invested in from the start – essential for optimal performance, maximum safety and avoiding costly downtime. Our parts are manufactured to the highest standards. They are specially designed for our equipment; guaranteeing perfect fit and the quality necessary for top performance.

You'll find Hiab Original Parts for fast order via our Hiab web shop. Our optimized stock and logistics ensure next-day delivery on almost all items, saving you time and cost.

## Produce as planned

Hiab ProCare™ is a flexible service contract designed to secure the uptime of all Hiab equipment. Scheduled and preventive maintenance helps your equipment retain the same high quality you invested in. Using original spare parts and the highest standards, our global service network takes professional care of every piece of your equipment reducing the risk of costly breakdowns and unexpected downtime. Let us take care of all scheduling, maintenance and inspections. By reducing total cost of ownership and increasing the re-sell value of your machine, ProCare brings you total peace of mind. Keep moving to produce as planned and boost your profit.

# BUILT TO PERFORM

Hiab is the world's leading provider of on-road load-handling equipment, intelligent services and digitally connected solutions. Hiab's offering encompasses class-leading load handling equipment including HIAB loader cranes, LOGLIFT and JONSERED forestry and recycling cranes, MOFFETT truck-mounted forklifts, MULTILIFT demountables, and tail lifts under ZEPRO, DEL, and WALTCO brands. As the industry pioneer, our commitment is to increase efficiency in our customers' businesses and to shape the future of intelligent load handling.
