

Ryder on-vehicle recommended parts list for Gen 2 units.

Item description	Part #
Motor Solenoid	75089833
12 Volt relay	85803921
Drive motor hose	7500109-1
drive motor hose	91318980
Lift cylinder hose	7500110-1
toggle switch-Multiple position	75089808

NOTE: Above parts are used on both power down and gravity down units. However hoses are dedicated to Gen 2 (rack & pinion drive) GTSL's and GT models. Since all of these units are dual pump units, if a coil is diagnosed to the the problem, coils are interchangeable to enable the unit to get back to the shop if more than one coile is failed.
